

# FREE RABIES VACCINATION CLINIC

## Bishop Paiute Tribe

**Monday, June 11, 2018    4:00PM - 6:00PM**

**Paiute-Shoshone Cultural Center**

**2300 West Line Street**

All dogs and cats should have their first rabies vaccination at 3 months (12 weeks) old, followed by a booster shot within the first year. Thereafter, they should be vaccinated every three years. Animals should be in good health to receive the vaccination. Please bring your pet's most recent vaccination records with you. if possible.

Pet owners are responsible for their pets during the rabies clinic. A cat in a carry cage is much easier to handle and at less risk of escaping. Dogs must be leashed at all times during the clinic. Animals that cannot be controlled by the owner, or that pose a safety risk for clinic staff, will not be served.
